

STRIDE

Surface Transportation Resource for
Information, Directives & E-Sources

STRIDE: Your One-Stop Shop for Surface Security Awareness

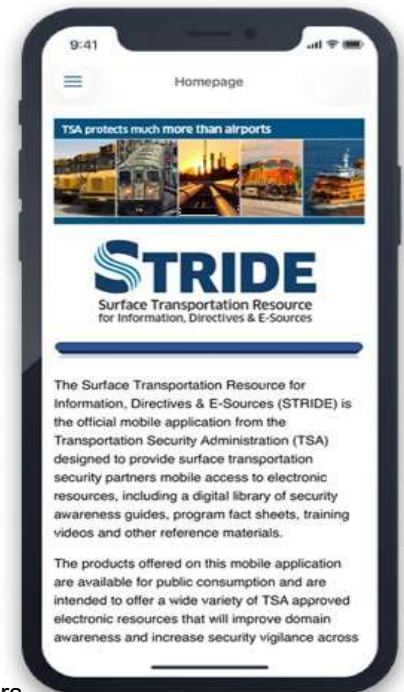

The Transportation Security Administration's STRIDE mobile application provides surface transportation stakeholders with instant access to essential security resources, directives, and materials—all in one place. STRIDE supports enhanced vigilance, readiness, and awareness, helping you stay informed and prepared to protect our nation's surface transportation systems.

- **Instant Access: Browse a digital library of DHS-approved security resources.**

- Security Awareness Guides
- TSA Program Smart Sheets
- Training Videos
- Reference Materials
- Security Directives

- **User-Friendly Interface: Effortless navigation with intuitive menus and organized categories.**

- Direct links to relevant TSA programs
- Seamless access to critical security resources
- Modal specific counterterrorism guides
- Simple download and sharing options

For informational purposes and intended for all surface transportation stakeholders.
